Dear Matthias Gentet

2014/7968/A – 10 Highgate Road NW5
Retrospective application - parallel application to 2015/6040/P

We note the proposed change from unauthorised internal to overhead illumination as shown annotated on undated drwg 586/2. A circular tube is shown within the fascia section, but not shown on undated drwg 386/1 "as existing"? If this is the roller shutter box please annotate to avoid ambiguity. The "as existing" drawing shows the "as-built" unauthorized installation.

Parallel application 2015/6040/P "as proposed" indicates a reduced size fascia panel, and we understand the projecting sign is to be lowered to visually relate to the ground floor unit as per Council design policy.

This is welcome.

Yours sincerely

E Howard
54 Twisden Road, NW5 1DN
