2015/6681/P	Joanna Millan	4 Court Close St John's Wood Park London NW8 6NN	14/12/2015 15:37:51	COMMEMP ER	I am writing in opposition to the planning application for Middlefield. I live at 4 Court Close, Boydell Court and my property backs on to the proposed development. Indeed my back garden wall forms part of some of the garages which would be demolished under the proposals. This development would significantly increase the density of housing in the area and would result in loss of light to my garden and back of my house. The main windows to my property back onto my garden and being South facing the resulting loss of light would be significant. I would be unable to grow anything in the garden and would severely limit the use of my garden. The 3 storey development would tower over my garden and any windows would interfere with my privacy being too close to my property. A previous similar application has already been refused a few years ago and there has been no change to the situation which existed at that time.
