2015/6400/P	Rosalind Englehart	20 Edis Street London NW1 8LE	17/12/2015 18:04:14	OBJ	We live almost directly behind this house which has had constant expansion over several years. The glass box is very intrusive and spoils the terrace and we hope that if the current application is allowed, the council will be very careful to restrict the glazing in particular anything facing over the back of Edis Street. We would not object to a skylight but we are already very disturbed by the artificial light, the glare and the lack of privacy.
