Now the landlords (not residents), already requesting permission for three dwelling houses in the back garden of 29-33 also wish to demolish two garages and build another house. Have these people gone development mad? This is a conservation area and I strongly urge Camden Planning to do just that: conserve it or we will soon lose whatever was left of the character of the area.</p> <p>Notwithstanding the distress this non-stop orgy of development is causing the elderly, sick and very young who just wish to live in an increasingly un-peaceful neighbourhood.</p>
