

Application No:	Consultees Name:	Consultees Addr:	Received:	Comment:	Response:
2015/6031/P	Judith Sayers	51 Winter Garden House Macklin Street London WC2B5ND	19/12/2015 14:45:36	OBJEMAIL	As a resident that lives directly above this property, I write to object to the proposed change of use and to the installation of extraction and ventilation equipment. My complaint is on the basis of noise and disturbance from late night use, gathering of smokers on the pavement, potential for further applications for extending licencing hours and potential noise and disturbance from extraction and ventilation equipment which would be located directly adjacent to residential properties on the lower levels of Winter Garden House. I further comments that I have not received notification of this application. My address is listed as a Neighbouring Consultee, but no written notification was received from Camden.
