

DESIGN & ACCESS STATEMENT

The application makes no change to the access to the building.

The solid door to the right hand side of the façade is access to neighbours property above & does not form part of our application.

DESIGN & ACCESS STATEMENT

The existing shopfront, fascia & projecting bracket remain & are painted. The name & logo sign are formed in powder coated individual letters fixed on spacers to the fascia. Illumination is provided by existing black stalk signs. A small powder coated panel displaying the name & logo has been attached to the existing wrought iron bracket. It matches other similar signs nearby in size. This is not illuminated.
