There are too many premises with A3 use in this area and in the last 5 years there has been an explosion of food establishments. This will only have a negative impact for existing A3 business's and their survival. We spoke to several camden planning officers at the time,who reassured us that they would limit the amount of licenses granted and that they were also concerned with increasing numbers. We have spoken to local residents and they are also worried with the high levels of early morning deliveries , noise and pollution. The community would like to welcome a wider range of business's other than A3. What we don't want to see are too many business's competing for the same customers , slashing their mark up and eventually going bankrupt leaving behind empty properties</p>
