2015/5435/P	Mr Patrick McGeever	Flat 10 Simone House 74A Homes Road NW5 3AT	23/12/2015 19:18:03	OBJ	<p>I currently live in the residential building Simone House 74A.</p> <p>There is already an existing student accommodation building on one side of our building. There is often commotion and anti social noise late into the evening most days and on the weekends from students which reduces the quality of our sleep and peace in the evenings.</p> <p>We are concerned that another student building on the other side would make the area louder in the evening and turn this immediate area into a miniature student campus.</p> <p>If more student buildings are added it may start to push out the working professionals and families who reside here (including myself) if the immediate area becomes to feel more like an offsite student campus.</p>
