2015/6391/L	Dr Sunil Chopra	217 Albany Street London NW1 4AB	23/12/2015 16:28:14	OBJEMPER	<p>I am concerned about the visual impact of the proposed new building. I do not understand how the plans are in sympathy with the conservation status of the area. The Nash mews is an historic street and preservation of its characterful charm must surely be a key consideration when evaluating any renovation/demolition proposals. Indeed the new building plans do not seem to value the architectural significance of the mews and surrounding streets.</p> <p>I am also concerned about large vehicular access during the demolition/building period. The mews is narrow and we have had problems in the past with large vehicles scraping the side of our house and damaging the railings. How would the council refuse vehicles (who are careful when turning in the mews) be able to continue their regular service if there are large vehicles connected with this proposed project on site? There is no available parking.</p>
