Andrew Jobling,
Planning Supervisor,
Levitt Bernstein Associates Ltd.,
1 Kingsland Passage,
London, E8 2BB.

Dear Mr. Jobling,

Re Asbestos Removal Works – Alexandra Road Tenants' Hall Roof

Please find attached copies of the permits to work and air tests certificates relating to the removal of the asbestos cement sheet duct covers and sealing of air ducts below in 3 areas on the roof of the tenants' hall, the only areas identified from the plans and from direct observation. Have also included Silverdell's method statement and invoice, internal instruction from the architect involved, and a copy of the original plan. Unfortunately, the copies of the original plans have not come out too well as they are a bit faded.

The works were carried out at the time to make the roof safe for the roofers to work. I hope this is sufficient for your requirements.

Please contact me if you require any further information.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'V Hart'.
