#### Informative(s):

- 1 Reasons for granting permission.

The proposed replacement windows with matching timber frames and double glazing are considered to be acceptable in design and appearance and would not harm the appearance of the host building, the wider Conservation Area or streetscene. The number, materials and size of window openings would remain the same. There would be no impact on the amenity of neighbours in terms of overlooking and loss of light.

No objections were received prior to making this decision. The planning history of the site and relevant appeal decisions were taken into account when coming to this decision.

Special attention has been paid to the desirability of preserving or enhancing the character or appearance of the conservation area, under s.72 of the Planning (Listed Buildings and Conservation) Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

The proposed development is in general accordance with Policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy, and Policies DP24, DP25 and DP26 of the London Borough of Camden Local Development Framework Development Policies. The proposed development also accords with Policies 7.4, 7.6 and 7.8 of the London Plan March 2015, consolidated with alterations since 2011; and the provisions of paragraphs 14, 17, 56-66 and 126-141 of the National Planning Policy Framework 2012.
