Subject: Additional comments to those sent on 6th December on planning application 2015/5894/P

I, Wyn Jones, am the owner of the top flat at 23, Hampstead Hill Gardens. NW3 2PJ.

I have already sent in comments on 6th December. I realise the closing date for comments has passed but I would like to make these additional comments.

I strongly object to placing 12 Solar Photovoltaics on the roof of 23A as this would be all that I look out onto from my flat !

I apologise for not incorporating this in my previous correspondence but I had not recognised what solar photovoltaics were and therefore what a huge impact this would have on my outlook. I hope you will feel able to take this into consideration when looking at this planning application.
