

Note:

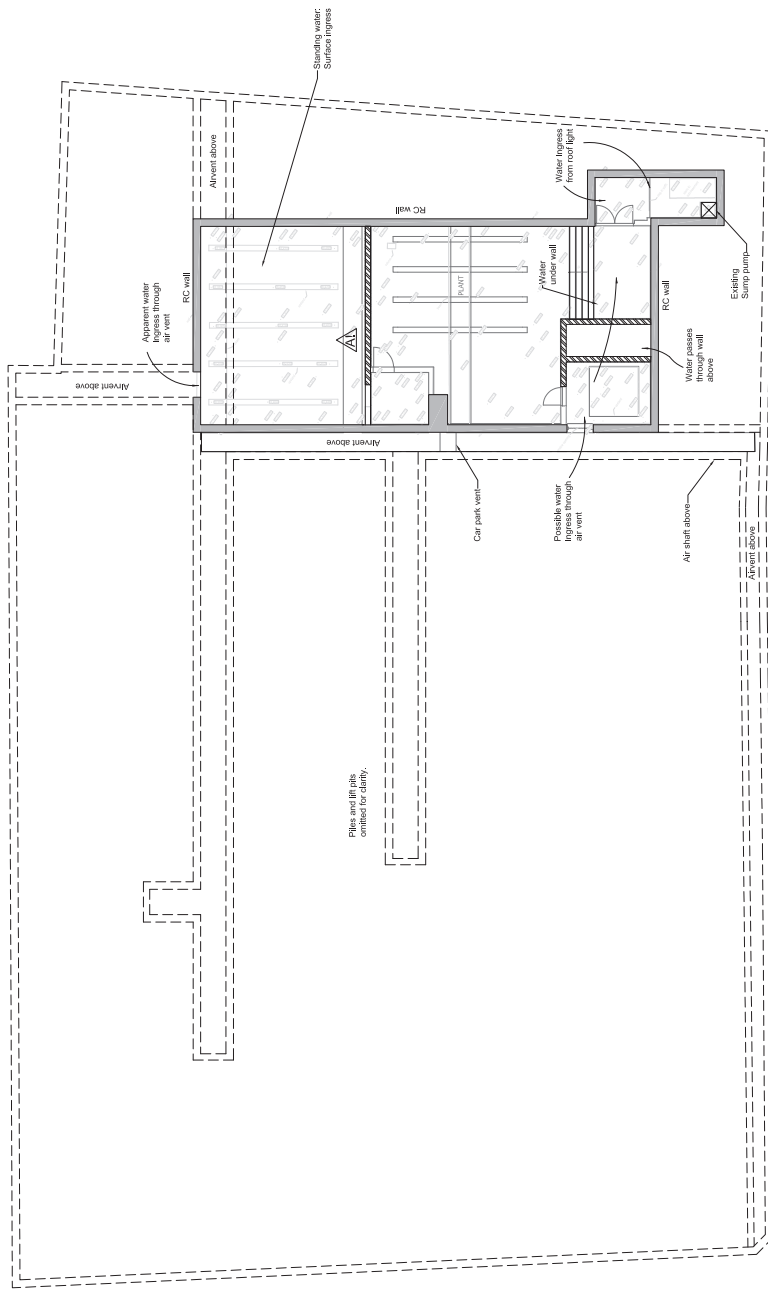

1. This drawing is to be read in conjunction with all architectural and engineering drawings and specifications.
2. Background survey drawings by Michael Colale & Partners - June 2012
3. Structural drawings for extent of structural works.

Shaft/Basement Hazard warnings

Note: Every site should refer to the designer's H&S hazard record. Every day low risk hazards have not been indicated on drawings. Contractors should be aware of the extent of the work and should be advised to a competent contractor. Should any additional hazards be identified, the contractor should notify the project team.

Note:
 1. This drawing is to be read in conjunction with all architectural and engineering drawings and specifications.
 2. Background survey drawings by Michael Colville & Partners - June 2012.
 3. Refer to the plans for extent of structural works.

Shaft/room Hazard warnings:
 Note: Every time detailed information refer to the designer's H&S hazard record. Every day low risk hazards have not been indicated on drawings. Contractors should be aware of the hazards and should be advised to a competent contractor. Should any additional hazards be identified the contractor should notify the project team.

- AA** Substation.
- BA** Former oil tank. Possible confined space.
- CA** Basement below.
- DA** Check the status of services and works to ensure retaining wall remains conditional.
- EA** Asbestos.
