They are not shown on any drawings.</p> <p>The plans seem to show that the space where the sheds are will be enclosed for sole use of flat 2.</p> <p>Please could you clarify what will happen to the sheds and ensure that reasonable notice is given for clearing them if they are to be removed.</p> <p>Secondly, I think the noise implications of a 'terrace' area in the back light well need to be considered. Sound is amplified in the light well.</p> <p>I fully support the conversion of this abandoned space back into a habitable dwelling.</p>
