2015/6424/P	Roushanak Iranzad	17 B Gladys road	24/12/2015 13:23:35	COMMNT	I live in flat 17 B Gladys road and I don't agree with this because there is going to be a lot of noise, dust and its very disturbing and as you don't have the map, I can't see the view of if its going to stop the light through my bedroom or kitchen window.
2015/6424/P	Steven Lewis	71 Edgwarebury Lane Edgware Middlesex HA88LU	01/01/2016 12:17:09	APP	We own the garden flat next door at number 15 Kylemore Road. The height of the proposed roof elevation at number 13 will affect the light to 15. The noise and probable consequential environmental affects whilst digging out the proposed basement would be horrendous as well as possible detrimental architectural movement. We object to this planning application on the basis of prolonged environmental noise issues, the reduction in natural light to the upper floors and possible architectural threat to the stability of number 15 excavating the lower ground / basement
