2015/6392/P	A Lewis	3 74 Company Gardens	04/01/2016 16:54:53	COMMNT	I live at 74 Compayne Gardens but not on the side of #72. Yet, it is clear that the planned works will change the outlook for the apartments in Princess Court facing #72 and the planned window will overlook the living areas of my neighbours. This seems intrusive. Please could these be re-considered because optimising an attic is fine but not when it encroaches and overlooks neighbours living space. Also, any new rooflights must point up or away from #74.
2015/6392/P	M Chhibber	Flat 2 Princess Court 74 Compayne Gardens London NW6 3RX	28/12/2015 11:48:30	COMMNT	I object to any proposed skylight/windows to the side facing 74 Compayne Gardens. Any new neurooflight/window on the side facing no. 74 will invade their privacy. As the top 3 floors of no. 74 have bathrooms and kitchens on his side, which each have windows. Further the proposed plans would be overbearing upon no. 74 and would result in significant loss of the existing view from the windows on the side of no. 74.
2015/6392/P	Rajiv Chandna	Flat 4 74 Compayne Gardens NW6 3RX	04/01/2016 14:00:11	OBJ	As we live in Flat 4, we fill face the most obstruction from changes proposed in 72 Compayne Gardens  1. Proposed room will lead to complete loss of privacy in Bathroom, Kitchen and Living room  2. Will significantly alter the view from our flats. It will especially blocking the sun  3. Expected noise from Cinema and Bar directly next to our bedrooms. It will come through to the full building via the windows
