Dear Sir,

RE: Planning Application ref: 2015/6995/P

Upon recent notice by the council and the developer's of Panther House, I would like to object to this development for two reasons:

1) Loss of sunlight

Transgressions of up to 40% from the BRE guidelines are too much for some properties in Holsworthy Square. Why should resident's loose so much light for an office extension!

2) Building design

Building a glass extension on top of old an old tenement block would look ugly and not keep within the style of existing buildings in the area.

I have no problem with the developer modernising Panther house but it should remain the same height and not impact on resident's severely.

Joanna Noel
