2015/6838/P	Dr. Y. Yeo	8 Heath Drive London NW3 7SN	14/01/2016 16:39:50	OBJ	In this application, the distance between the front of the parking space to the back of the pavement is clearly less than 4.8m (minimum required by Camden for dropped kerb application). The parked vehicle will overhang the pavement and cause obstruction and inconvenience to any pedestrians, especially during school run (St Margarets School is located at the end of this street). In addition, I object on the grounds that this would constitute to unfair restriction on the already limited parking available on the street.
