2015/7028/P	Mr John Lock	14 Church Close Kelsale Saxmundham Suffolk IP17 2PA	14/01/2016 11:26:25	OBJ	As the owner of 12 Stukeley St. I wish to raise my concerns over the potential for significant structural damage to the adjoining property (no.12 Stukeley St) during the construction phase of the proposed development. Of particular concern is the proposal to excavate a basement. Given the age of the adjoining properties and the building methods employed at the time of their construction, I consider this proposal would pose a considerable risk to structural integrity of no.12.

I respectfully suggest the planning committee consider requesting a revised proposal without the basement development, which may prove to be more acceptable.
