Your comments

Because the ~~infrastructure~~ infrastructure doesn't support the no. of flats. The area is being changed for reasons that don't benefit local people who lived in the area for generations.

I object to the new proposed development.
You need to build with community
support - and build houses people
can afford! Council housing would
be great.

Your comments

I strongly object because I agree with the fact that the new buildings would crowd the highstreet, the area is home of amenities, it would increase the traffic and disfigure the area, over-crowd schools, etc.

Your comments

The area is overcrowded.

- No parking space
- Traffic everywhere
- Overshadows children's playground
- Too high for highest.

Your comments

Although no longer a resident in the area I have friends and family here. I also regularly stay for both business + pleasure and I feel the proposals will ...

- Have a huge and detrimental impact on the already over burdened transport system, traffic + parking.
- Create a strain on the local infrastructure - local schools etc.
- Increased noise levels
- Loss of light to surrounding houses + play areas.
- And will effect the aesthetics and beauty of this beautiful part of London.

I'm concerned for the children of Lymington road as the proposed buildings will cast a shadow over the football pitch, especially when they need to play out after school, as I did as I child and my children do now.

I'm also worried for the residents of Lymington road as their gardens will be over shadowed and over looked by the blocks and this will spoil the enjoyment they get from them.

These blocks are too tall, too bulky and should be in keeping with the neighbouring houses.

Everybody is entitled to a little sunshine in their lives.

Your comments

Development plans are overexpanded
in relation to current scale + scope of
current high-street footprint + character.
More significantly,
The lack of full attention to pricing plans that will
make these properties available, accessible to people
on low-incomes is also critical in light of current +
rising inequalities.

Your comments

I frequently visit my car in Lynton Rd and so feel entitled to offer my opinion on this application.

I am amazed to find that the Council can ignore the fact that this application contravenes its own policies w.r.t planning. The true effects on the character of the area have been ignored and the effect on inhabitants of the area down played.

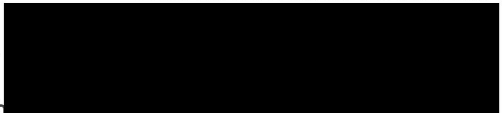

I have particularly studied the shadowing and light reduction effects for Lynton Rd. Complaints with guidelines on these matters is not enough. The overall effect is major for both ~~of the~~ light reduction & shadowing, this is undeniable and will have a major effect on many properties. This cannot be denied or refuted. The developer's own submission established it.
