Name MISS DAVIYANI KOTHARI

Address 2 CROWN CLOSE, LYNINGTON RD

Email address.. 

Telephone number. 

Planning application number 2015/6455/P

Planning application address 156 West End Lane London NW6 1SD

I support the application (please state reasons below)

I object to the application (please state reasons below)

Your comments

I have lived on the Lymington Road Estate for over 30 years now. During this time I have seen a lot of changes one of which is the increasing traffic on West End Lane. If the 7 storey block goes ahead the area will see an increase in residents which ~~also~~ may impact on the amount of people living in the area who may also have their own mode of transport leading to an increase in congestion. or even worse lead to

an accident occurring.

Please continue on extra sheets if you wish

This will not only have a huge impact on West End Lane but may also affect side roads such as Lynington Road and Crediton Hill.

Travis Perkins has been a part of the community for over 30 years and although it has a small number of employees it has managed to provide employment for a small number of people who may lose their jobs if the development goes ahead, which I am ^{totally against,} furthermore the Football pitch

and children's play area on Lynington Road has for over 30 years provided children with a space to play.

Currently, all flats on Crown Close have good lighting however my concern is that if these blocks were to

(P. T.O)

be built we may not have
significant lighting hence plunging
us into darkness.

My belief is that children /
teenagers have a right to play
in an area which is open
beyond a 7 storey tower may
affect this and it may even be
possible that the football pitch
& Park will be considerably
affected if this work is to proceed.

When I first moved into the
estate this "open space" was
just a piece of land and it
was residents who fought to give
their children somewhere to play
freely, please do not take this
away from ~~us~~ as it is a ~~valuable~~
valuable piece of land that is
being used regularly.

Finally, West End Lane (and West Hampstead) has a wide range of people living in the area already ranging from the elderly, mid-class, disabled + a mix of ethnic groups. There has long been a need to provide these residents with facilities which may otherwise be lacking not only in West Hampstead but in Camden as a whole.

The 156 building which previously allowed tenants + residents to go and repair a problem was a very important service particularly to the elderly or disabled who do not have access to the Internet.

We urgently need services for young people, although we do have a library here isn't another "quieter space" as such for teenagers to go to who may want to escape a busy or lively household - furthermore Camden does not have very many secondary schools which is needed desperately.

to accommodate the ever increasing
population perhaps this space
could be used for other purposes
rather than for ~~housing~~^{housing} purposes.
