Telephone number... 

Planning application number... 2015/6455/P

Planning application address... 156 West End Lane London NW6 1SD

I support the application (please state reasons below)

I object to the application (please state reasons below)

Your comments

Please note my comments on the attached sheet.

I object to the application for the following reasons:

The area is already overdeveloped with high rise blocks. This would add further to the density. As yet, the new developments along the roads in the area are not fully occupied so their occupancy will lead further to the overcrowding.

Seven storey blocks will obviously house families with children.

Needs of Families: Schools – not enough places at present, so the situation will be made worse. Not enough GPs so getting an appointment will entail even longer waits.

Overcrowding of rail and tube stations, increase in traffic on West End Lane – already a serious problem. Likewise, safety of pedestrians, due to narrow pavements, not capable of taking the increase. For the disabled whose life is difficult enough, this as well as the loss of business space and shops will make it even more challenging.

No longer will children's recreational areas be as originally intended – open spaces, not overshadowed by high rise blocks – likewise local homes and gardens.

The Conservation Area will be severely compromised – views gone for ever, instead, taking their place, high rise developments, blocking all views in and out of the Conservation Area. If this application goes through, other Conservation Areas in the Camden Area stand to suffer the same fate.
