5. Description of Proposal

Please provide a description of the approved development as shown on the decision letter:

The proposal is to clad the front elevation of Synergy House above ground floor level with a living wall, which is a structure fixed by rails to the external wall and covered in vegetation with gaps left to reflect the existing openings. About 8,000 plants would occupy the new living wall with species carefully selected to reflect local conditions. Plant panels would be pre grown elsewhere and thus semi-mature when put in place on the new installation with the irrigation and other supporting equipment located away from public view. The proposal follows and is intended to complement a recently approved scheme to extend, alter and convert part of the main building to a range of uses. Construction work in relation to this scheme is in progress.
