2015/7142/P	Aiduan	26 Priory Terrace London NW6 4DH	19/01/2016 13:30:29	OBJ	<p>I am writing to strongly object this planning as power network substation has significant impact on residents nearby (up to 200 metres) in both health and property value.</p> <p>Scientific studies have showed that power network substations have serious health effects, such as cancer, dementia or depression on residents up to 200 metre radius. Moreover, close presence of a substation could reduce the number of potential buyers by up to 63% and significant reduction in property value.</p> <p>Abbey road/Belsize road and nearby areas are residential areas and the impact on the residents are unimaginable .</p> <p>As an expert of environmental impact in this area, I am really surprised by this application and strongly object it.</p>
