Subject: Re: Comments on 2015/4094/P have been received by the council.

Dear Sirs,

Since I have submitted this objection (referenced below) I have taken the time to talk to the owners, review their additional submitted documents and consider their application. I am pleased to say that I have changed my opinion!

Please can you remove my earlier *Objection* and, if at all possible, register my opinion *In Support* of the application. My general and varied initial concerns have been met, and I believe that my worries about parking could easily be met by allowing building but not granting additional residents permits, as I believe is now possible.

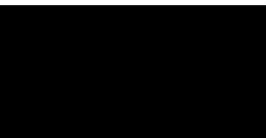

I believe that the addition of rooms to transform a local restaurant / pub into a 'coaching-inn' style of establishment will benefit the area, ensure continued investment in and commercial success of the business itself, and complement the general changes we are seeing in and around Kentish Town. At least one of the respondents complained that they knew of no-one who supported it - well I and several other local residents I've spoken to (generally under 45's!), would greatly welcome this development and fully support the application.

I am a neighbouring resident in Grove terrace.

I object to this application on grounds of insufficient provision of parking spaces in the area. This is always a problem in the local roads - additional residential units will make this worse.
