2015/5847/P	John Davies	St MArys School 47 Fitzjohns avenue Hampstead London NW3 6PG	22/01/2016 09:36:24	COMMNT	<p>St Mary's School 47 Fitzjohn's Avenue NW3 6PG</p> <p>Would like to comment on the potential disruption to traffic in what is already a very congested road at school drop off and collection times t sites location exacerbated by its close proximity to a busy junction with Lyndhurst Road. The School is primarily concerned about the impact of heavy equipment arriving and departing frequently on the safety of school children, parents and visitors We would also like to highlight that as well as this application at number 66 there are building works still continuing at No 45 with heavy equipment arriving and departing frequently also there is another potential development pending at number 49 for flat conversion and extension developments which if approved would potentially surround the school in construction projects for the foreseeable future.</p>
