2015/6692/P	Renata Korpak	44A Lambolle Road London NW3 4HR	23/01/2016 18:34:04	INT	I would like to object against this work. Adding a below-ground level will cause noise, dust and disturbance which I will be directly exposed to. Also, even if it will not be visible from the street, it is not in keeping with the late Victorian character of the area. Thirdly, any deep excavation may indirectly cause cracks or damage to houses in the neighbourhood, including the one I live in.
