2015/2704/P	John Punton	1 Charrington Street London NW1 1RS	23/01/2016 16:32:21	OBJ	<p>I live in a Grade II listed building. My view down Charrington Street will be ruined by the proposed blocks.</p> <p>The scheme does not provide enough social rented flats. It is not fair on the community.</p> <p>Purchase Street open space is a nice park. I would rather see trees than buildings.</p> <p>When you go down to St Pancras you have got so many taxis lining up which is causing air pollution. Trees do a good job for the environment and one should not remove them. They are taking away too many trees in the scheme.</p> <p>I like to see the trees around, even if you are not sitting in the park. You still got an option to go and relax if you want. The parks will be overshadowed by blocks and the park is more like an eyesore.</p> <p>With the construction work there will be even more dust and air pollution.</p>
2015/2704/P	Medina Hadzimuratovic	60 Goldington Street Cecil Rhodes House London nw1 1ug	23/01/2016 11:39:01	OBJ	<p>It is going to be so cramped, they are taking away primary school places. It's going to be lot less green if they cut down so many trees. I live in a conservation area and if I walk down the road my view would be ruined. I am concerned about parking in the area.</p>
2015/2704/P	John Wood	13 Walker House London NW1	25/01/2016 08:29:21	OBJ	<p>I live in the southern, Grade II listed end of Walker House.</p> <p>I am concerned that this development is going to impact on this building in terms of size and character. The views past Ossulston Estate will be damaged.</p> <p>This scheme only supplies 10 affordable housing. The other 34 units are being robbed from the affordable housing fund. This scheme is being subsidised from another project and the sums just don't add up.</p> <p>Since I moved to Camden in 1984 we have had non-stop construction with dirt and dust. The air quality is really bad. I have now got COPD. The loss of trees and more development will make the air quality worse and my health will deteriorate further. The character of the park will change and I won't be able to use it in the same way.</p> <p>I have concerns that overbuilding of the Purchase Street park will make it difficult for residents and businesses to evacuate in an emergency.</p> <p>There are some really great trees on Purchase Street and Polygon Road that would be lost.</p> <p>I am a driver for a disabled person and take him shopping. I am concerned that I would have difficulties parking if the scheme goes ahead as 40 parking spaces would be lost. There would also be more pressure on disabled parking spaces.</p>

2015/2704/P	Thomas Christopher Power	59 Coopers Lane London NW1 1HD	22/01/2016 18:16:51	OBJ	<p>I object to the scheme, because I lose privacy. They new residents are looking into my bedroom.</p> <p>I am against overdevelopments because we have enough people in the area now.</p> <p>We had for 15 years constant developments, and more developments are coming, non-stop lorries coming round. The dust the dirt, the pollution affects my health, my skin.</p> <p>I am against loss of open space and the loss of trees, we need greenery, which is important for air quality.</p>
2015/2704/P	Esmeralda Dajlanaj	134 Walker House London Nw1 1er	23/01/2016 15:32:35	OBJ	<p>Further to my husband's comments I would like to add:</p> <p>I use the Polygon Road Open space for the kids to play after school, especially when they are on holiday. They love running around on the grass, they sometimes play football, ride the bike. With the park proposed there will not be enough space to run around.</p>
2015/2704/P	Leonidha Dajlanaj	134 Walker House London nw1 1er	23/01/2016 15:08:22	OBJ	<p>With the block of flats on Polygon Road it means that I will have less sun in my flat, the view will be restricted by all this development.</p> <p>My kids are using Polygon Road Open space all the time. With new scheme, the playing area will be reduced and they can't use it the same way. There will be fewer gym facilities and this would impact me. Less trees will be bad for our health.</p> <p>If the kids in general have less open space, they will have to play on the estates which will result in antisocial behaviour as it's already overcrowded.</p> <p>I have a car that I use for work. As we lose parking spaces throughout it will affect me badly.</p> <p>When they do the construction work all roads will be congested with lorries and it will be dangerous for my kids. The construction will be a big disruption to my family's life. We already have so much construction work in this area happening, this is not helping us.</p>
2015/2704/P	Bev Baxter	21 Purchase Street NW1 1RW London	23/01/2016 11:52:15	OBJ	<p>Less light, I will have more overlooking and less privacy. There will be more noise where I live, all the school traffic going up Purchase Street creates also more noise.</p> <p>So many blocks in the park, it's not very big that park to add so many buildings.</p> <p>I am a dog owner and not happy with the proposed facilities.</p> <p>I am registered disabled and parking issues and air quality will have a real impact on my life.</p>
2015/2704/P	Oscar Bou	17 Fleetway Birkenhead Street London WC1H 8BL	23/01/2016 10:32:05	OBJ	<p>I object that the plan for the Purchase Open Space is for it be overbuilt. I regularly use it, walk through it and enjoy the green. If there were less trees it would be less enjoyable and it is beautiful precisely in the way it is now. It is a place for quiet relaxation that would be lost.</p>

2015/2704/P	Nemesio Soriano	Flat 14 Walker House London NW1 1EN	23/01/2016 16:05:10	COMMNT	<p>This is an overdevelopment of Somers Town. You should not build on the parks. It will discourage people from using them.</p> <p>Not enough social housing.</p> <p>My route to work will pass the construction works.</p> <p>If you cut our trees you are cutting our oxygen. What will take the pollution from our air?</p> <p>My home is a listed building. This development will spoil it.</p> <p>There is less play space for my children. My daughter is always happy to see the light and the sky.</p> <p>It is already hard to find parking in Chalton Street. If we lose 40 car parking spaces it will be a problem.</p> <p>The view from Ossulston Street into Charrington Street will be ruined.</p> <p>Too much construction work – there are no silent trucks.</p>
2015/2704/P	Christie Soriano	Flat 14 Walker House London NW1 1EN	23/01/2016 16:06:35	OBJ	<p>The school children, including my daughter, use Purchase Street Open Space for their cross country training. This park is important to my family.</p> <p>I like opening my doors and looking at the trees.</p> <p>They've almost finished building the Crick and now you are going to start building again.</p>
