**Attachments:** London Underground response.PDF

Seonaid

Please see the below email. It appears that London Underground have got confused between the phase 4 and phase 5 schemes in their consultation response regarding phase 5.

As noted in the below email, London Underground have advised that the proposals will not affect London Underground and therefore the stated condition in the attached is not required.

Many thanks

Emily

Ian,

Many thanks.

I assume you will arrange for the planning letter to be revised.

Regards

John

John,

Further to our telephone conversation earlier, I have now looked at the UCLH phase 5 plan that you sent across via email and I have spoken with my colleague Shahina.

Providing that your site is limited to the buildings outlined in red (Royal Ear Hospital + Old Student's Union) on your plan, development of this site is unlikely to affect London Undergrounds infrastructure.

If the scope of your work changes significantly and moves further west, please contact me again.

Regards

**Subject:** 1027800 UCLH Phase 5 - LUL response to planning application 2015/1281/P

Ian,

Further to our conversation I have attached the site plan for UCLH Phase 5 and the letter from Shahina that has been uploaded to the planning documents.

We would appreciate it if this response can be reviewed with respect to our site as we do not believe that it will affect any of your assets.

Regards

John
