**Subject:** Planning Application 2015/6716/P - Flat 1, 83 Priory Road, NW6 3NL

From Mrs Patricia Cocks, 81 Priory Road, NW6 3NL

I own the ground floor flat at this address.

I wish to oppose the application 2015/6716/P for an air-conditioning unit to be placed between the applicant's house and ours on a roof at first floor level. This position is in a narrow space between the two buildings, very near to my sitting room window at the front and to a bedroom window at the back. I object on the grounds of excess noise. A constant or fluctuating noise of 34 decibels would be a considerable nuisance so near to my property. I consider that the high walls on either side of the unit would amplify the noise; there is no technical evidence in the application that considers this point.

The unit would also be unsightly and would be visible from my front garden.
