2015/7085/P	Tom c McGregor	3 Jade House 12 Lancaster Grove London	01/02/2016 08:05:23	COMMNT	I think the trend for allowing people to erect very large buildings in their gardens is very dangerous. We already have one of these at #15 Crossfield and it seriously impacts the look and feel of the gardens next to and beyond it. I also worry about summer, will these buildings be used for parties? It is very short sighted allowing these to go ahead. I should also point out that the recent extension at #15 was carried out during hours at which contractors are not meant to work, including all days on Saturdays and some Sundays.
