2015/6764/P	Peter Wellstein	4 Camden Square London NW1 9UY	30/01/2016 17:15:47	INT	<p>Peter Wellstein 4 Camden Square LONDON NW1 9UY</p> <p>Re planning proposal 2015/6764/P 3 Camden Square NW1 9UY</p> <p>I wish to object to this planning proposal. As I understand the planned building should have three storeys. It therefore will most probably block the light to my only window facing north-west (Lounge as my most important room, also kitchen). Also all the other buildings in this row of houses are only two stories (and are further away) and the new building will clearly impact the view from end of my flat. Also if permission a precedent may be set which would open the door to other house owners following the same idea.</p> <p>Thanks.</p> <p>Kind regards, Peter Wellstein</p>
2015/6764/P	Sigurd Max Fordham	3 Camden Square Camden Town London NW1 9UY	28/01/2016 10:29:59	COMMEMP ER	<p>I am the applicant for this building. I have lived at 3 Camden Square for about 40 years. When my wife and I bought the house we always intended to build ourselves a house to live in after our children had left.</p> <p>My work has been concerned with building and I am an engineer specialising in sustainable construction. Architecture needs to find a new vision so that new buildings will need no extra energy for heating, a minimum of electricity for lighting at night time only, and of course no need for mechanical cooling. Solar generation of electricity to meet the demand.</p> <p>Justin Bere was chosen to help meet these aims because that is his idealistic intention. We have coordinated with Camden's pre-app process, and trust that we can all feel proud of the planning outcome.</p> <p>As an engineer I am confident that we will meet our aims for sustainability. The house will be an exemplar of sustainable development for the coming century.</p> <p>I hope the general resistance of our society to all new development will not frustrate the aims of this simple development.</p> <p>No Basement .</p> <p>Max Fordham</p>

2015/6764/P	Edward Cullinan	62 Camden Mews	28/01/2016 15:26:43	NOBJ	<p>Dear Sir,</p> <p>I have carefully studied 24 drawings of the proposed house that have been submitted to you for planning permission.</p> <p>I live at no. 62 Camden Mews, a grade 2 with star listed building, so I care what else is proposed for the Mews.</p> <p>I want to say that I think Mr. Bere's proposal for Max Fordham's house is an excellent one since it's sensitive to the "grain" and character of the Mews whilst having it's own particular character in the way that other houses in the News do. It also combines a layout which is particularly suitable for it uses with a well composed three dimensional form. Yours sincerely Edward Cullinan</p>
