2015/5868/P	J Harris	108 Sumatra Road	29/01/2016 15:40:00	COMMNT	<p>There is no plan drawing to show how the proposed 3m extension fits within the garden and boundary fences. The boundary fences on both sides of 106 Sumatra Road slope from left to right across the projected boundary lines from the main building party walls. The proposed 3m extension would cut off the north-most part of garden from yard area along the side of the back extension.</p> <p>It has not been made clear if communal front steps giving access from the street would be affected by the proposed raising of the ground floor.</p>
