**Petition against the proposed basement development at 24 Quadrant Grove NW5 4JN Application no: 2015/7208/P**

We the undersigned strongly object to this proposed development and believe that Camden Council should reject this application. This is based on the fact that the Council rejected a similar permitted development application back in October 2014 after due consideration of conflicting legal advice at a public meeting. Circumstances and the legal position have not changed significantly since that decision was taken and we therefore believe that it would be inconsistent and wrong to approve a similar application now.
