The Council has considered your application and decided to grant permission subject to the following condition(s):

Condition(s) and Reason(s):

- 1 The development hereby permitted must be begun not later than the end of three years from the date of this permission.

Reason: In order to comply with the provisions of Section 91 of the Town and

Country Planning Act 1990 (as amended).

- 2 All new external work shall be carried out in materials that resemble, as closely as possible, in colour and texture those of the existing building, unless otherwise specified in the approved application.

Reason: To safeguard the appearance of the premises and the character of the immediate area in accordance with the requirements of policy CS14 of the London Borough of Camden Local Development Framework Core Strategy and policy DP24 and DP25 of the London Borough of Camden Local Development Framework Development Policies.

- 3 The development hereby permitted shall be carried out in accordance with the following approved plans:

6214-AS26-D&A Design, Access & Heritage Statement, 6214-AS26-LM-BLOCKPLAN, 6214-AS26-OSmap, 6214-AS26-E01, 6214-AS26-E02, 6214-AS26-E03 6214-AS26-E04, 6214-AS26-E05, 6214-AS26-E08, 6214-AS26-P01, 6214-AS26-P02, 6214-AS26-P03, 6214-AS26-P04, 6214-AS26-P05 and 6214-AS26-P08.

Reason: For the avoidance of doubt and in the interest of proper planning.

Informative(s):

- 1 Reasons for granting permission:

The proposed basement level doors on the front and rear elevation are considered acceptable in terms of materials and design. The width of the timber door frame on the rear elevation is relatively thick however given that the door would be a replacement of a non-original door it would not be considered harmful to the character or appearance of the building. The use of timber is a sympathetic material to the host building. The proposed replacement rooflight, satellite dish, tv and radio aerials at rear roof level would not be visible from the public realm and are deemed acceptable at this location.

There are no concerns regarding impact on residential amenity as the new doors would replace existing doors at this level and would therefore not result in any additional overlooking.

No objections have been received in relation to the proposal. The site history and appeals have been taken into account in making this decision.

Special attention has been paid to the desirability of preserving or enhancing the character or appearance of the conservation area, under s.66 and s.72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposed development is in general accordance with policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy, and policies DP24, DP25 and DP26 of the London Borough of Camden Local Development Framework Development Policies. The proposed development also accords with policies 7.4, 7.6 and 7.8 of the London Plan 2015 consolidated with amendments since 2011; and paragraphs 14, 17, and 56 -66 and 126-141 of the National Planning Policy Framework.
