Ref: 22479/AT

Dear Sirs,

Royal Central School of Speech and Drama – Application Reference 2014/7413/P

This letter is intended to discharge Condition 8 in the above Application.

Price & Myers prepared the Basement Impact Assessment and Construction Methodology reports for the Planning Application and we remain appointed by the Royal Central School of Speech and Drama to provide a full structural engineering consultancy service through the rest of the design and construction phases of the project. We will also be responsible for submitting the full structural design details for Building Control approval.

Our services include site visits to monitor the progress of the works and confirm that they are in accordance with our designed details and with good industry practice. We will also review temporary works proposals from the Contractors temporary works co-ordinator to similarly monitor compliance with the Basement Impact Assessment assumptions, the permanent works design and with good industry practice.

The project will be overseen by me, and I can confirm that I am a full member of the Institution of Structural Engineers.

Yours sincerely,
for Price & Myers

Andy Toohey
