My enquiry is

REGARDING PLANNING APPLICATION

2015/2089/P 2015/2109/L Re: address: 11
Rosslyn Hill, NW3

This original email to Rob Tulloch [as copied in below] was repeatedly rejected by your email server - so I am sending it here and would appreciate it if you fwd it to him and to the planning department regarding this issue

to - rob.tulloch@camden.gov.uk.

Dear Mr. Tulloch

we know Air Studios - my wife was session bassist and recorded there

the planning app. is bad - I need not go into specific details as I am sure that you are already more than fully aware of the many problems inherent in digging under this property and the innumerable potential structural and noise problems that this will cause. The nature of both the important history regarding Sir George Martin and the studios place in world music and film score history makes it an asset to Camden and also to the wider world and also more recent and current usage of this studio ,means that it should be protected against any development that may interfere with it's day to day running and affect it's business or add noise levels that could ruin it's financial ability to remain in use as a premier recording facility - furthurmore as a church the Victorians had a habit, as did previous ages, of burying unmarked graves under churches - the site itself is also likely to be an ancient site of

archeological importance. Churches as I am sure you are well aware are often and most usually built on top of earlier and often ancient pre-Roman sites and so this is another reason to reject this application

hence I object to all aspects of this planning application.

kindest regards

BH & Lady Jacqueline Elizabeth Meade

nb. this email has also been sent to other musicians, recording and film artists
