

I AM STRONGLY OBJECTING TO THIS APPLICATION. Because of a number of reasons which I'll list:

1-construction noise, I live behind this house and work at home. The noise would be very disturbing. Especially since there is building going on on Finchley Road,

2-Traffic building vehicles on this small but busy road will create a traffic jam on Clorane Gardens which I use daily. It's hard enough when 2 cars try to pass each other due to parked vehicles on both sides of the road.

3- it will limit parking where I have a right to park and due to new buildings I'm finding it increasingly difficult to find a space,

4- Environmental concerned- ,it requires taking down 3 trees

I see these beautiful old trees from my garden. They are actually an important aspect at the back of the garden. They create shade in the summer and happily block me from seeing this rather large house. These trees enhance my garden and could affect my grade. Plus it will impact the environment.

Comment Type is Objection

All best
Susan

I AM STRONGLY OBJECTING TO THIS APPLICATION.
