2016/0070/P	Benedetta Doria D'Angri	31 Fellows Road, NW3 3DX	12/02/2016 12:18:12	OBJEMAIL	<p>I would like to add the following comments:</p> <p>New Mechanical Services Plant – I would like to express some displeasing that the property owners and neighbours have regarding the operational disturbance that could result from this ‘new’ KCC roof level installation. Supporting this Application is an Environmental Noise Assessment by Ian Sharland Ltd, which also covers near neighbours such as the Hampstead Britannia Hotel I am aware that property owners are urged to take their own recognition and question this installation as they feel appropriate. Certainly this should have been on the agenda for any prior and future meetings as once in place there will be real disturbance which would be difficult to remedy.</p> <p>The construction development will have a dramatic impact also on Parking for the Fellows Road residents as well as the Tobin Close ones. This issue has been raised at this stage due to the changes that appear on the layouts supporting the recent Planning Applications submitted to Camden. I am terribly concerned that, with the pressure on parking spaces and their allocation, especially with new properties being created, this matter does need further debate and clarification especially oin the part of Camden Planning office.</p>
