2015/3148/P	Miss Lorraine McCarthy	1 Tower Mansions 134/136 West End Lane West Hampstead London NW6 1SB	14/02/2016 17:53:06	OBJEMAIL	I live directly behind this new development this will cause a huge loss of natural light into my ground floor flat and garden. This development will also over look the property and greatly reduce my privacy. I have a great concern that local residents like myself have not been consulted or considered whilst this application has been submitted.
2015/3148/P	Miss Lorraine McCarthy	1 Tower Mansions 134/136 West End Lane West Hampstead London NW6 1SB	14/02/2016 17:53:15	OBJEMAIL	
2015/3148/P	Miss Lorraine McCarthy	1 Tower Mansions 134/136 West End Lane West Hampstead London NW6 1SB	14/02/2016 17:53:22	OBJEMAIL	
2015/3148/P	Brigid Shaughnessy	20 Kylemore Road London NW6 2PT	08/02/2016 16:13:17	OBJEMAIL	<p>This Development shows how regrettable it is that the West Hampstead interchange and so called ‘intensification’ area has no masterplan in place to guide development. The major design features in this application are critically out of keeping with surrounding rooflines and building proportions and this scheme could and will significantly harm the continuity, consistency and legibility of Blackburn Road.</p> <p>It is claimed by the developer that the height (after the cosmetic changes, setting back etc) at 65950 has some logical connection and should be judged in relation to the buildings on WELane frontage 72900 and the student hostel’s roofline @ 70020 but this is fanciful and illogical as both these are at a considerable distance to the site and the immediately neighbouring terraced houses are substantially lower – the warehouse is 63160. Is the hope that no one will mind/notice how abnormal these townhouses look looming over the Asher building because the site is located beside Billy Fury Way? The proportions actually match nothing nearby and are very out of kilter with every adjoining existing height level. The words 'sore' and 'thumb' come to mind.</p> <p>Compounding the insensitivity of this scheme are the PV louvre panels – again an unwelcome and perverse design feature with no coherent visual connection to anything and totally out of context with the whole area's architecture .The poor design, inappropriate height and massing (even the reduction from 7 to 6 houses and fiddling the garden sizes has not resolved the overcrowding issue) and incongruous materials make this a disappointing and unsuitable development for this key site. It appears as if the local Neighbourhood Development Plan has been almost entirely ignored in this case. We strongly object and ask that this scheme be refused planning permission as it is entirely wrong for its setting and breaches numerous community planning policy expectations we voted for in July 2015.</p>

2015/3148/P	Ms Phillips	2 Gladys road	14/02/2016 23:55:24	OBJEMPER	Too many buildings in such a small space .6 tiny town houses , with any outside space? Are the building large enough for 2 bed? Density in an already over populated area. Added stain on amenities , water , electricity , sewage. Local transport.Extra cars /parking . Another too high building made of materials not in keeping to the area ,like other building the company have been involved with in the past . .Where is the master plan for this area , how does this fit in with the master plan?
2015/3148/P	Richard Stephen Best	24 West End Lane London NW6 4PA	13/02/2016 17:23:29	OBJ	<p>The west end of the victorian warehouse is presently a gabled elevation with a ground and first floor. It is about only 4 metres away from the rear of Tower Mansions,134/136 West End Lane and faces its windows. However, the elevation is very narrow, with some ground floor (only) attachments and this allows light to the windows of the main rooms of Flats 1,1a and 2 of Tower Mansions.</p> <p>It is proposed that the elevation is extended sideways. This would completely block light from 1 Tower Mansions and cover the windows of 2 Tower Mansions at a distance of only 4 metres. It would have a profound detrimental effect on the outlook of those flats and destroy the small garden space which has been carefully nurtured.</p> <p>The increase in size of this part of the proposed development would be overbearing, overshadowing and result in lack of light in flats and loss of any existing views. Therefore these plans must surely be amended and I strongly object to them in their present form.</p> <p>I have prepared some photographs to illustrate the extremely damaging effect they would have on the homes at Tower Mansions but there appears to be no facility offered by the planning department to send them to you. Only by a visit from the planners could the effect be fully realised and as agreed with the occupants, I hereby invite you to suggest a date and time when we could all meet in the flats.</p>
2015/3148/P	Mari Byrne	2 Tower Mansions 134/136 West End Lane West Hampstead London NW6 1SB	12/02/2016 15:51:01	COMMNT	I object very strongly to the proposed application 2015/3148/P, 11 Blackburn Road,on the grounds that the scale of the West Elevation of the building where it faces the rear of Tower Mansions is overbearing and will be very oppressive as it is approximately 4 meters from the living room windows. Also due to the height and proximity of the West Elevation proposal it will overshadow and blackout all light to the living room area. Loss of existing views will also become nonexistent. Photographs submitted in the objection of MR R S Best emphasis this very clearly.
