Dear Carlos Martin

Re: Application Ref: 2015/6587/P

Thank you for your letter of 29 January 2016 in which we have been invited to comment on the above planning application.

I am writing to inform you that we are against the proposed further internal developments of Flats 1, 2 & 4 located in 15 Rondou Road, for the following reasons:- damage to the existing structure of the property caused by the extensive drilling and banging [all internal chimneys are currently being removed and have already caused tiles to fall off the wall in our property. We are a semi and therefore these works have a knock on effect, the on-going noise while the works are taking place and further noise if the terrace goes ahead when it is in use. Further implications are to do with a health and safety element whilst the works are taking place creating the roof terrace.

- Privacy
- Lack of light
- Ability to see the sky
- Noise during the works
- Noise when in use by the new occupants
- Disturbance
- Have already extended the property to the rear

regards
 Murtagh and Sarah Corrigan
