

Application No:	Consultees Name:	Consultees Addr:	Received:	Comment:	Response:
2015/7220/P	Richard Ekins	Flat 31 Knollys House 39 Tavistock Place London WC1H 9SA	14/02/2016 22:58:34 INT		<p>After investigations, I understand that these antenna are planned for the roof of the Generator building. The address should be The Generator, Compton Place, off 37 Tavistock Place. Many of my informants think the application refers to a different building owned by the Imperial Hotel Group, adjacent to the Tavistock Place pavement. I request due notification is given again and the misleading notification rendered void. I write on behalf of the Knollys House Residents' Association committee - as Secretary - representing 41 flats at Knollys House, at 39 Tavistock Place. The Residents Association object to the proposals (1) on the grounds of a potential cancer risk due to the close proximity of the equipment to their homes. (2) to the negative effect that the antenna will have on their views from the rear of their homes to the north. The Generator has recently been purporting to mitigate a number of the many nuisances it causes to its neighbours. We submit that this application is a cynical breach of its purported good intentions. Unlike, its visitors and staff, local residents will have to live for years with this cancer risk provoking application if granted.</p>
