2015/7210/P	Alex Hidalgo	Flat 3 42 Malden road London Nw53hg	15/02/2016 21:51:54	OBJ	<p>I have only just received the letter dated 21 January 2016 and have therefore not been able to comment until now.</p> <p>I oppose to the proposed raising of the existing roof line because it will disrupt my view from 3 of my windows and the entire property. It will also stop light from coming into my property. Considering I am on the top floor it is obvious that the same would be the case for the two below flats including the ground floor flat garden.</p> <p>Furthermore I object to the proposed installation of 3 skylights as this will decrease the privacy of my property significantly.</p> <p>These aspects will decrease the quality of the property as well as its value.</p>
