2015/7220/P	Hedi Viterbo	Flat 35 Knollys House 39 Tavistock Place WC1H 9SA	17/02/2016 13:10:54	OBJ	<p>As a resident of a neighbouring building, I strongly object to the proposed installation of antennas in this address, for three main reasons.</p> <p>First, as many studies have shown, such antennas pose a potential cancer risk for the local population - a weighty concern given the residential nature of this area.</p> <p>Second, these antennas would be out of keeping with our Bloomsbury Conservation Area. Indeed, several other addresses nearby have already refused them.</p> <p>Finally, the proposed antennas would be unpleasant to view, especially for those - like me - whose flats face this address.</p>
