2015/2704/P	Oflia Basilie	171 Levita House Chalon Street NW1 1HR London	17/02/2016 18:13:35	OBJ	I object to the proposals as we want to keep our green space for the next generation of children to play. We don't want to lose any green space - where are the children going to play? It's alright for people with money - they can go out of the area, but not for people on low incomes or on benefits - they need local green space. People need local green space - we have to support out community.
2015/2704/P	Debbie Kemp	31 Crowndale Court Somers Town NW1 1TY	17/02/2016 15:20:14	OBJ	I object to the building of more buildings in our area - we already have enough building works. I have also completed other similar petitions - as I think there are too many buildings in a small area. We are fighting to keep the green we have. In the summer we like to go the the green and we need green space. I also feel there should be more affordable and social housing.
2015/2704/P	Helen Rita Porter	7 Crowndale Court Crowndale Road London NW1 1TY	17/02/2016 17:34:42	OBJ	<p>I am made aware that the green space - Purchase street open space – is to be built over to accommodate more hard construction. It fails to think that after all the promises London Borough of Camden made as a forerunner of nature conservation and claiming as a promise that in respecting residents views and well-being will maintain an environmentally friendly community for all to enjoy has now been enticed to ruin it.</p> <p>I object and vehemently do so.</p> <p>I am adding my voice in the hope that this planning application will not go through and common sense will prevail according to the promises made to the bona fide residents Somers Town years ago. Please see to reassuring.</p>
2015/2704/P	Nazmin Bhanu	153 Levita House Nw1 1HR	17/02/2016 18:08:50	OBJ	This plan is not good for the environment because we are very polluted already here. There are many elderly people who are ill and vulnerable living around the park. This is an area with many children too who like to play in the park opposite Coopers Lane. T Parks are needed, for families, our family has barbecues in the summer. the buildings proposed will also reduce the light, particularly in my mum's house as she lives in Coopers Lane.
