Subject: Starbucks application (2015/7282/P)

I wish to object to the above planning application for the former 'Best One' premises in Kentish Town Road on the following grounds:

1. Kentish Town Road does not need yet another coffee outlet - it already has about ten.
2. Especially not from a firm that does not pay its fair share of tax in this country.
3. And especially not from a firm that specialises in both outsize and over-sugary drinks (see this morning's news item).

I have no business interest in this application, being merely a local resident who does use the existing coffee outlets and finds them perfectly satisfactory.
