Full Planning Permission Granted

Address:

Loft conversion and installation of 2 x rooflights to rear roofslope.

Drawing Nos: Existing long elevation A, Existing short elevation B and site location plan received 02/12/2015.

The Council has considered your application and decided to grant permission subject to the following condition(s):

Condition(s) and Reason(s):

- 1 The development hereby permitted must be begun not later than the end of three years from the date of this permission.

Reason: In order to comply with the provisions of Section 91 of the Town and Country Planning Act 1990 (as amended).

- 2 All new external work shall be carried out in materials that resemble, as closely as possible, in colour and texture those of the existing building, unless otherwise specified in the approved application.

Reason: To safeguard the appearance of the premises and the character of the immediate area in accordance with the requirements of policy CS14 of the London Borough of Camden Local Development Framework Core Strategy and policies DP24 and DP25 of the London Borough of Camden Local Development Framework Development Policies.

- 3 The development hereby permitted shall be carried out in accordance with the following approved plans: Existing long elevation A, Existing short elevation B and site location plan received 02/12/2015.

Reason:

For the avoidance of doubt and in the interest of proper planning.

Informative(s):

- 1 Reasons for granting permission:

The proposed rooflights are an appropriate design, number and scale to the roof of the host building by reason of their modest size, flush installation, and materials, which would preserve the character and appearance of the building. Due to their nature and location, they would not result in harm to the amenity of any adjoining residential occupiers in terms of loss of light, outlook, or privacy.

Whilst the development will have some visual impact in terms of introducing new elements to the building, such minor alterations in this location are not considered harmful to the character or appearance of the host building or surroundings.

No objection has been received. The site's planning history and relevant appeal decisions were taken into account when coming to this decision. Special regard has been attached to the desirability of preserving or enhancing the character or appearance of the conservation area, under s.72 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposed development is in general accordance with policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy, and policies DP24, DP25 and DP26 of the London Borough of Camden Local Development Framework Development Policies. The proposed development also accords with policies 7.4, 7.6 and 7.8 of the London Plan 2015 and paragraphs 14, 17, 56-68 and 126-141 of the National Planning Policy Framework.
