BS5837:2012 Cascade chart for tree quality assessment

Category & Definition	Criteria (including subcategories where appropriate)	Identification on plan
Trees unsuitable for retention		
Category U	Those in such a condition that they cannot reasonably be retained as living trees in the context of the current land use for longer than 10 years * Trees that have a serious, immediate, structural defect, such that their early loss is expected due to collapse, including companion shelter cannot be mitigated by pruning * Trees that are dead or are showing signs of significant, immediate, and irreversible overall decline * Trees infested with pathogens of significance to the health and/or safety of other trees nearby, or very low quality trees requiring adjacent trees of better quality NOTE: Category U trees can have existing or potential conservation value which it might be desirable to preserve	Red on plan RGB 127,0,0
Trees to be considered for retention		
Category A	Trees that are particularly good examples of their species or varieties of particular merit * Trees that are particularly good examples of their species or varieties of particular merit * Trees that are particularly good examples of their species or varieties of particular merit * Trees that are particularly good examples of their species or varieties of particular merit	Light Green RGB 0,255,0
Category B	Trees that might be included in category A, but are considered to be of moderate quality * Trees that are particularly good examples of their species or varieties of particular merit * Trees that are particularly good examples of their species or varieties of particular merit * Trees that are particularly good examples of their species or varieties of particular merit	Mid Green RGB 0,0,255
Category C	Trees of low quality with an estimated remaining life expectancy of at least 10 years, or young trees with a stem diameter below 150 mm * Trees that are particularly good examples of their species or varieties of particular merit * Trees that are particularly good examples of their species or varieties of particular merit * Trees that are particularly good examples of their species or varieties of particular merit	Grey RGB 091,091,091
