

PLANNING REF: 2015/2704/P

To the development management team,

I strongly disagree with the development plans that are due to go ahead as the suggested plans will affect me.

I am an elderly woman who spends most of my time home alone as my sons are at work and I like ~~tranquillity~~ the peace and quiet which I believe if the plans go ahead ^{it} would disrupt this.

Some of the suggested plans are tall landscapes and I already live on the ground floor where I do not get much natural lighting into the house and these taller buildings would disproportionately effect that even more making me switch lighting on much earlier during the daytime.

Kind Regards,

Amina Khatun. 13 COOPERS LANE
