2015/6920/P	Kate Walmsley	29 patshull road NW5 2JX	20/02/2016 16:04:54	OBJEMPER	The proposed roof extension from the rear will raise the building to the same height of the adjacent 5 storey property to the west of the dwelling. No 29 has the first of 9 valley gutters for the buildings to the east and from my property I can see the entire run . I would be concerned that the proposed extension would set a precedent for the other properties and that if some did and some didn't extend upwards then the symmetry would be lost and the skyline become a hotch-potch
